Bred Cow Listings for August 20th:

This is only a partial listing that will be added to as sale approaches.
This additional Bred Cow Sale will take the place of our monthly Regular Sale Aug-Dec 2024

Rowena Farms

82 good black and red bred cows. 16 will be big reds to start calving right away. These will all be young mostly four year olds. Also around 48 mostly five and six year old cows that will start calving in October. Then around 20 running age cows from six years to solid mouth, with nothing over eight or nine years old we believe.

16 big pair. These big black pairs run separately and have been running back with a good black bull. These cows originated from the Oberholtzers in Northeast MO. The calves started coming February 4 through the first of April, and are big impressive rascals. These are cows you'll want to put in the "show pasture" next to the road.

North Fork Farms, Louisiana, MO

15 pairs, these will be three-year-old red angus cows that originated out of the Gatson replacement female program. Jerry purchased these as a short-term spring grazing project with the intentions to turn them late summer early fall. Although short term timing was the only thing Jerry had shorted. Everything has been done right here. They are running back with two Jackson Lashmett SimAngus bulls from Winchester IL, the cows have a complete health program and the calves have had their first round of shots per Dr. Neal Martin.

Carl Thompson

15 pairs, these cows will be black and black white face cows running mostly from four to six years old.
